Wood Burning Stoves

The "Commodore" wood burning, brick lined cast iron heater and stove.

These Swedish manufactured and designed plinth stoves are widely used in the numerous cabins and cottages that line the fiords of Sweden and Norway. Beautiful cast finish, latched burner doors and fitting hot plates ensure these working stoves will add both warmth and character to any cabin or lounge. Ideal for the narrow boat or houseboat.

Also suitable for beach chalets and marine cottages. De humidifier and variable ring hot plates available.

Flues available if required.

Approx dimensions

Large: 1100 x 345 x 345 mm Flue 130mm

Approx Weight: 70kgs

The "Companion" is a small wood burning, brick lined cast iron plinth heater and stove, more suited to smaller vessels or cabins where space is at a premium, but the need for warmth is still essential. Again a beautiful casting ensures a high quality of finish and latched doors and vents ensure ease of use.

Flues available if required.

Approx dimensions

Small: 700 x 360x 360 mm Flue 100mm

Approx Weight: 40kgs
